

QUESTION 3

[65 Marks]

Given an HTML file material named **q3.html**. Create a CSS file named **q3b.css** to style the page. You are **NOT ALLOWED** to modify the HTML file at all. You only want to work on the CSS file. Figure 1(a) shows the original look of the page, while Figure 1(b) shows the expected look after applying the styles. The style specifications and the assessment are given in Table 1.

The screenshot shows a web form for UTM (Universiti Teknologi Malaysia) Office of Student Affairs. The header includes the UTM logo and the text 'Office of Student Affairs' and 'Pejabat Hal Ehwal Mahasiswa'. The main title is 'REGISTRATION FORM'. Below the title, there is a notice: 'All Student are required to fill in their particular details.* We take your privacy very seriously. We do not share your details with any external companies.' The form section is titled 'Student Information' and contains four input fields: '*Name:', '*Email:', '*School:' (a dropdown menu showing 'School of Computing'), and 'Your Comments:' (a text area with placeholder text 'Please leave your Comments'). A 'Submit' button is located at the bottom left of the form.
